### LOCAL NEWS.

Fourth of July next Wednesday.

The road to the Dreadnaught mine has been completed.

For writing paper and envelopes, best quality at low rates, for cash, at this office.

The board of county commissioners will hold a regular meeting next Monday.

Dr. and Mrs. E. P. Blinn have decided to return to Chloride and they may be expected to arrive here in a few days.

Cols. Kruse, Richards and McTavish went up Chloride creek to-day for the purpose of experting some mines up there.

Work is being steadily pushed on the Dreadnaught mine and there is no abatement in the production of high grade ore.

A dance will take place in the town hall at Fairview Wednesday evening, July 4th. A cordial invitation is extended to all.

Envelopes from 5 cts. to 15 cts. per package for sale at this office; also a good supply of extra good writing paper. Cheap for cash.

A neat, handy and valuable reference book has been issued by the State Ore Sampling Company of Denver, Colorado. It gives the method of sampling and selling ores, and is full of valuable tables of weights, measures, monetary affairs and rules. It is furnished free to all who write for it. (The Mining Industry and Tradesman, Denver, Colo.)

The Fairview smelter fired up again yesterday morning and the latest report from there is that everything is running smoothly. We are told that the company held a meeting this week and decided to give the copper matte process a thirty days' trial, having for the present abandoned the lead proposition. That they will come out all right with the copper proposition is our belief, if they will stay by it and give it a fair trial.—LATER. Just as we go to press Jim Daiglish returned from Fairview and reports the smelter running nicely and turning out copper matte. Success to the enterprise.

Mr. George L. Waldon died at the home of his sister, Mrs. Frank H. Winston, at Fairview, last Friday morning. The funeral service was held at the residence of his sister at four o'clock Saturday afternoon and the remains were brought to Chloride and interred in the cemetery here, Mr. Charles Russell conducting the burial service. Mr. Waldon was a victim of that dread disease consumption and came to Fairview several months ago. The deceased was twenty-seven years of age and unmarried. The afflicted family and friends have the heart felt sympathy of this community.

There was no mail from the north last night and the chances are that there will be none for some time. Probably one of the biggest railroad tie-

ups ever known is now on. In Chicago, Thursday night, an official of the railroad union stated that by to-day all engineers and fireman of five different roads would be ordered out. Engineers, fireman and telegraph operators are out at Las Vegas, La Junta and Nickerson. Roads throughout the country being rapidly tied up.

### Card of Thanks.

We wish to express our grateful thanks to the kind friends who assisted us in the care and burial of our brother, George L. Waldon.

That they may not fail to receive such ministrations in their hour of need, is our sincere wish.

FRANK H. WINSTON.  
ELLA W. WINSTON,  
Fairview, N. M., June 27th, 1894.

### HILLSBORO.

Mr. Alex. Bentley, of Hermosa, came in Sunday and returned next day. Martin Wegmann was with him on the down trip.

Wm. Jenks returned Monday to Albuquerque. He has been examining the Inter Republic properties for interested parties.

Manager Matchan of the smelter is out with the aid of a crutch. One leg was very severely burned and is liable to take quite a while to heal.

Miss Tunia Mooreland was married on the 20th to the Rev. W. K. Lloyd at the residence of C. C. Pennington. The newly wedded pair started immediately after the ceremony on a trip to Mexico. The Rev. Wm. Lloyd is an Englishman and has charge of the Episcopal church of Deming and preaches occasionally at Hillsboro and Silver City.

The El Oro mine is in a good body of good ore at present. The leasers after working nearly a year and drifting five hundred feet broke into the main lode last week and have a foot of pay ore. When we take into consideration that the leasers are men of small means and they have kept up such constant development we cannot but admire their pluck and hope that they will get something big to repay them.

The following items reached this office too late for publication last week.—Ed.

George E. Robin is leasing quite extensively on dumps at Kingston since silica ores are needed at the matte smelter, and we hope Mr. Robin will do well with his new venture.

Born—To Mrs. Milt Horn, on the Tierra Blanca, a boy. Every body coming out all right the old man not expected.

The Kingston water jacket furnace is being put in place at the Standard mill in Hillsboro. This will double the capacity of the matting product.

The lower tunnel of the Good Hope-Bonanza is in very rich ore, a bunch of fine free gold came out in the past few days.

Dr. F. I. Given and family have returned from a trip to California and the Mid-Winter fair.

The men injured by the explosion of matte are progressing finely. They have used up all the vaseline in town for their wounds.

W. J. Hill, of Fairview, paid the capital a visit last week.

The concentrator at Kingston, known as the Chandler mill, will be moved to Hillsboro and put up in connection with the Hopewell mill on the Percha below the box.

Messrs. Maev & Mayland are developing the Flora Temple. The Flora Temple is on the contact of the gold belt and surrounding lime. The get some very rich ore in quartz boulders in the contact.

Quite a few miners have left for Cochiti lately. They will be back bye and bye.

NOTE—In last items the name of the man burnt at the smelter should have been Doughty instead of Doty.—SUBSCRIBER.

"That's a well developed industry," suddenly remarked the man who tries to be smart. "To what do you refer?" inquired the unwary acquaintance. "To the traffic in petroleum." And that is how he came to lose his last friend.—Washington Star.

Governor Cunningham the high territorial sheriff who has jurisdiction all over the territory, except in Dona Ana county, is the latest candidate for congress on the democratic ticket.—Rio Grande Republican.

The New Mexican finds fault with the number of available men-of-brains in the republican party competent for the position of delegate to congress from New Mexico. The republican party of New Mexico is made up of

the brainy men of the territory. It is no wonder the New Mexican is in an envious frame of mind, when the democratic party has only one available candidate, beside P. B. Lady of Silver City. That is Hon. And-I-don't-know Joseph.—Silver City Enterprise.

### The Empty Dinner Pail.

As I sit idly dreaming  
Of the happy time that's gone,  
Not a dollar in my pocket,  
And the winter coming on;  
The thing that breaks me up the most  
And makes me feel so small,  
Is the sight of that old dinner pail  
Hanging on the wall.

I've carried that old dinner pail  
For fifteen years or more,  
And it never saw me out of work  
Or destitute before.  
For with shops and factories running  
And the best of wages paid,  
A prosperous lot of fellows were  
Dinner pail brigade.

But you see we wasn't satisfied,  
Though it seemed most mighty strange,  
And we said we thought the country  
Would be better for a change;  
And we railed about the tariff  
And we blowed about free trade,  
And we voted democratic  
Did the dinner pail brigade.

Well, a change was what we wanted  
And we got it, too, you bet,  
For the shops and factories all shut down  
And left us in the wet;  
The banks suspended payment  
And I lost my little all,  
And the dinner pail is empty now  
That's hanging on the wall.

I'm dependent now on charity  
For the roof above my head,  
And I've seen my wife and little one  
Go hungry to their bed;  
But I've plenty time for thinking  
And I see it isn't strange,  
For I voted democratic  
Just to have a little change.

Yes, we voted democratic,  
And you see the change has made  
A lot of hungry beggars  
Of the dinner pail brigade;  
The working men are idle  
But the wormwood and the gall  
Is to see the empty dinner pail  
Hanging on the wall.

—The Coming Nation.

The grand jury humbug and nuisance has reached an exasperating stage in this territory. The members of these bodies appear to think that they are impeached to simply work a political "racket" for some partisan purpose.—Albuquerque Citizen.

The house committee on commerce, last Monday, gave a hearing to the Pullman and Wagner sleeping car companies in opposition to the bill recently introduced which limits the rate for sleeping cars to a half cent per mile for lower berths, and a third of a cent per mile for upper berths, and compels the companies to furnish safes and assume responsibility for valuables. The Pullman and Wagner companies contend that the rates proposed would drive them into bankruptcy.

The celebrated Consolidated mining case including the Consolidated, Contention and Gun Boat claims, situated in the Mogollons, Socorro county, after being on trial for twelve days at Socorro, was decided in favor of the defendants, Chas. Davis, et al. The court, on motion of the defendants, (after the plaintiff had got all his evidence before the jury), instructed the jury to return a verdict in favor of the defendants.—Albuquerque Citizen.

Among the democrats mentioned for sheriff are J. F. Cook, W. C. Bruton, C. S. Bahney, Levi Baldwin and Wm. Bain, all of them being good men. The oldest son of Don Felipe Peralta is being talked of for assessor, and would make a good one. \* \* \* Bland City must be all right, as the citizens of that place expect to have a dance and a car load of soiled doves within the next two weeks. \* \* \* Last Thursday the president sent the name of C. S. Bahney to the senate for confirmation as postmaster of Socorro.—Socorro Advertiser.

There arrived in Denver the other day from Aspen, a car load of nearly pure silver ore from the Smuggler mine, and the single car of ore is worth \$400,000. This car contains the purest lot of silver ore ever shipped out of a mining camp and lays about the car in pieces weighing from an ounce to 1,800 pounds. This pocket of ore was struck in the Smuggler mine about six weeks ago, and has been kept under guard ever since. Its great value may be realized when it is remembered that at the present low price of silver it will bring \$400,000.

While excavating for the foundation of the normal school building last week, the workmen unearthed a number of ancient graves. They are supposed to be those of the prehistoric residents of this vicinity. The supposition is borne out from the fact that they were found near the summit of one of the highest hills near the city.—Silver City Enterprise.

## NEW YORK DISPATCH.

ESTABLISHED 1845.

The largest and most interesting weekly newspaper published in the United States, devoted to Fascinating Stories, Sketches, and Adventure, News, Gossip, and department matters relating to Masonic, Grand Army, and Fire Organizations.

The New York Dispatch, in addition bears a popular weekly story and family newspaper, and embraces the most aggressive in its political advocacy of pure and unadulterated American ideas in politics, and is the only newspaper published in New York City that has consistently and fearlessly advocated

## FREE AND UNLIMITED COINAGE OF SILVER.

After the great bimetallic mass meeting held in New York, the chairman of committee of arrangements sent the following letter to the Dispatch:

New York, August 25, 1894.

Editor New York Dispatch:

DEAR SIR—The committee of arrangements who had charged of the mass meeting of bimetallics, held at Cooper Union last evening, desire to express their appreciation of the valuable services rendered to the cause of bimetallicism by the New York Dispatch, and embraces this opportunity to thank you for your and generous efforts to promote the public well being by advocating the cause of the money of the Constitution, which always has and always must be the money of the people.

I have the honor to be, sir, very respectfully, yours, JOHN G. BOYD, Chairman.
